

Welcome Message to the participants of Russian Textile Week and Inlegmash 2022, the 21st International Exhibition for Equipment for the Textile and Garment Industry

Dear exhibitors and visitors to Russian Textile Week 2022 and the 21st edition of the International Exhibition for Equipment for the Textile and Garment Industry, INLEGMASH 2022, I am happy to welcome you to EXPOCENTRE Fairgrounds, the major networking platform for textile and garment industry professionals and textile machinery manufacturers in Russia and the CIS!

This year's edition of INLEGMASH shows good momentum with its largest showcase in ten years. More than 130 leading manufacturers and suppliers of equipment, spare parts, components and consumables for the textile and garment industry will offer professional visitors a full range of modern technological solutions. The show welcomes companies from 15 countries: Austria, Canada, China, Czechia, Denmark, France, Germany, India, Italy, Japan, Latvia, Russia, Spain, Switzerland, and Turkiye.

INLEGMASH 2022 is held with support of the Russian Ministry of Industry and Trade, the Souzlegprom – the Russian Union of Textile Industry Enterprises, and under auspices of the Russian Chamber of Commerce and Industry.

For the convenience of our visitors and exhibitors, the show is divided in several sectors with each of them reflecting the demands of the professional audience and showing the latest equipment for the primary processing of natural fibres, processing of chemical fibres, as well as spinning, weaving, finishing, textile printing, and other sectors of the industry.

Following the trend of digitalisation of production, INLEGMASH will feature the Digital Factory for the second year in a row. It is a mini textile factory where you can see how computer-aided pattern design, digital printing and cutting work, and how ready-to-wear garments are sewed. The events of the conference programme will be held under the umbrella of the 2nd INLEGMASH International Industry Conference. It will bring together executives and technologists from leading Russian manufacturing enterprises, representatives of well-known global brands, the financial community, the Russian executive and legislative authorities, and the R&D sector. A busy programme gives all participants a great opportunity to discuss many relevant issues related to production, implementation of the latest technologies, and the practice of using state support tools.

I would like to wish all exhibitors and visitors to Russian Textile Week 2022 and INLEGMASH 2022 fruitful work, new business leads, and every success in implementation of business projects.

Alexey Vyalkin
Director General
